

One Step Equations Problems

Underline and Circle where necessary!!

1. Solve following expression.

$$\frac{z}{6} = 12$$

2. Solve following expression.

$$3x = 27$$

3. Solve following expression.

$$8m = 48$$

4. Solve following expression.

$$6z = 30$$

5. Solve following expression.

$$\frac{x}{12} = 3$$
